SPAIN: Terrorist Threats

25X1

[] Spanish progress toward democracy, spurred by the strong support the government's reform proposals won in the referendum on Wednesday, could be set back if terrorists have actually carried out their threat to kill a prominent political figure kidnaped last weekend.

25X1

[] The terrorists had demanded the release of 15 terrorists from Spanish prisons in exchange for the release of their hostage--Antonio Marie de Oriol, President of the advisory Council of State and a member of the Council of the Realm. The government refused to yield to this demand. Shortly before the deadline set by the terrorists was due to expire late yesterday, the terrorists raised their demand to include the release of all political prisoners.

25X1

[] The newspaper which served as intermediary between the government and the terrorists last night received a telephone call stating that Oriol had been executed. A spokesman for the newspaper said he could not confirm the validity of this information.

25X1

[] The government is in a fairly good position as a result of the unexpectedly strong popular support--some 94 percent of the votes cast--it received in the referendum. Prime Minister Suarez, in his well-received speech to the nation on Tuesday evening, argued persuasively that political violence in Spain is not an outgrowth of the move toward liberalization, pointing out that it was also a feature of the last years of the Franco era.

25X1

[] Nevertheless, if Oriol has been murdered, the impact on political evolution in Spain could be significant.

25X1

[] The most immediate danger lies in the threats of far rightist terrorists to retaliate by killing leftist leaders. According to press reports, death threats have been received by Socialist leader Felipe Gonzalez, Christian Democrat Ruiz Gimenez, and Communists Carrillo and Tamames. Several leftist leaders, including Workers Commission chief Camacho, have been provided with police bodyguards.

25X1

25X1

25X1

[] A series of killings by extremists on the left and right could lead to a spiral of violence and counter-violence that would rapidly involve more and more of the political spectrum. Both far left and the far right would welcome a breakdown in public order. Far rightists hope to provoke a military coup and a return to Francoist repression of the left, while far leftists hope to spark a rising of the masses.

25X1

[] Oriol's death would probably hit the left hardest. Pressure on the government to crack down on leftists of all hues would intensify and the right, humiliated and frustrated by its poor showing in the referendum, would attempt to win the support of staunch conservatives in the military. Pressure from the military would reduce the Prime Minister's flexibility when he negotiates with parties of the moderate left to secure their participation in the legislative election next spring.

25X1

[] In particular, Oriol's death would complicate the government's efforts to find an arrangement to allow the Communist Party to participate, however indirectly, in the election. The Communist Party's central committee reportedly is "extremely agitated" by the Oriol kidnaping.

25X1

[] The party denounced the kidnaping and denied any connection with the terrorist group that carried it out, but Communist leaders apparently assume that the military--which remains the main obstacle to legalization of the party--and much of the public will not distinguish between the party and the extremist splinter group that was responsible. The Communists reportedly fear that Oriol's death could set the party's public acceptance back by a "good year."

25X1

[] A setback to the Communist Party's bid for legalization would strengthen radicals in the party who favor a more militant approach than that advocated by party leader Carrillo. This in turn could lead to increased labor agitation in the pre-election period, when the Spanish economy will be particularly vulnerable. []

USSR: Provinces Praise Breshnev

[] Evidence of the growing Brezhnev cult in the USSR apparently is even more plentiful in the provinces than in Moscow as some regional party officials try to outdo one another on the occasion of the party leader's 70th birthday tomorrow.

[] On recent trips to the Russian hinterland and to several cities in Soviet Central Asia, US embassy officers saw prominent pictures of Brezhnev on walls and in windows of public buildings. Brezhnev's writings and memorabilia were displayed in local museums, and pamphlets, books, and phonograph records dedicated to the party leader's accomplishments were being widely sold.

[] Some cities visited had large color portraits of Brezhnev painted directly on the sides of major public buildings, suggesting that these might become permanent features of their urban landscape.

[] One Soviet [] observed that the prominence given Brezhnev at the Lenin memorial complex in Ulyanovsk--Lenin's birthplace--seems to be a sign that Brezhnev is now beginning to be linked to the founder of the Soviet state. []

ZAIRES-ZAMBIA: Relations

25X1

25X1

[REDACTED] //Following Zambia's decision to adhere to sanctions against Rhodesia in 1973, Kaunda shifted his country's trade patterns so that half of Zambia's exports, including most of its refined copper exports, moved over the Benguela railroad. The closure of this route in 1975 forced Zambia to use the Tanzam railroad through Tanzania and other routes.//

25X1

[REDACTED] //Despite these shifts, Zambian exports decreased significantly, contributing along with lower copper prices to the first foreign trade deficit in Zambian history. More recently, the Tanzam railroad has been able to absorb most of Zambia's exports, but Zambia clearly would like to be able to use the Benguela railroad.//

25X1

[REDACTED] //Zaire's problems have been similar but not as severe, partly because of the availability of a local port and partly because Zaire continued to use a third rail route through Zambia and Rhodesia to ports in Mozambique and South Africa. The closure of the route through Rhodesia and Mozambique in early 1976 has also narrowed Zaire's transport options.//

25X1

[REDACTED] //In addition, Rhodesian guerrillas have attacked the railroad lines inside Rhodesia, and at least one train carrying Zairian mineral exports was derailed. Zaire also imports coke from Rhodesia for its copper smelters.//

25X1

[REDACTED] //One of the problems in opening the Benguela railroad is the continuing presence in Angola of National Union forces, which have so far effectively prevented use of the eastern part of the route. The Angolan government is able to run trains as needed between major population centers in the western and central parts of the country.//

25X1

25X1

25X1

25X1

25X1

[REDACTED] //Zairian President Mobutu may have his doubts about Neto's ability to keep the Benguela railroad open, once repairs have been made, but he is also interested in improving relations with Angola and has virtually cut off all Zairian support of Angolan groups still fighting the Popular Movement. Mobutu will probably agree in principle with Kaunda's proposals, but any concrete action is unlikely to come out of the current meeting between the two.//

25X1

BRAZIL: Communists Arrested

25X1

[REDACTED] //The Brazilian government cracked down this week on communist activity in Sao Paulo--Brazil's largest city.//

25X1

[REDACTED] at least 30 leaders of the pro-Chinese Communist Party have been arrested and three--including two members of the party's central committee killed in a shoot-out--are dead. The small pro-Chinese group, which split away from the pro-Soviet party during the 1960s, has never posed a major security threat to the government.//

25X1

[REDACTED] President Geisel has consistently taken a hard-line approach against communist subversion as part of an apparent strategy to win approval from military leaders for his efforts to strengthen legitimate political activity in Brazil.

25X1

[redacted] This week's move should improve the image of General Dilermando, the army commander in Sao Paulo, who has been criticized by conservatives within the armed forces for his opposition to the torture of political prisoners and his generally moderate approach to security issues. [redacted]
